

HP DesignJet Z9+ Pro 64-in Printer

Highest professional photo quality at top production speed¹

EXCEPTIONAL—Unique vibrancy from widest gamut¹

- Achieves the widest gamut in its category¹ with chromatic RGB HP Vivid Photo Inks.
- Generate custom ICC profiles and achieve colour accuracy, consistency with the embedded spectrophotometer.²
- Get smooth gradients and reproduce distinct shades of colour with HP Pixel Control.
- Get superior gloss uniformity using the optional HP Gloss Enhancer Upgrade Kit.³

PRODUCTIVE—Produce more with higher speed⁴

- Take more jobs—print up to 18% faster with better quality on satin photo media and 46% faster on canvas.⁴
- Be more efficient—experience the fastest media handling, spindle-less and automatic roll feed.⁵
- Reduce supplies interventions with recyclable 1-liter HP Eco-Carton ink cartridges.⁶
- Increase uptime with universal and user-replaceable HP HDNA printheads, with dual drop weight technology.

SMART—Control print operations with HP PrintOS⁷

- Monitor your performance and make data-driven decisions with HP Print Beat.⁷
- Easily share media presets remotely, gain visibility over operator routines with HP Configuration Center.⁷
- Act fast—receive supplies, system, and connectivity status notifications via the HP PrintOS mobile app.⁷

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>

¹ Highest professional photo quality based on widest colour gamut. Testing commissioned by HP and performed by Sogeti in January 2021 comparing the HP DesignJet Z9+ Pro 64-in Printer and comparable competitive printers that represent the majority market share worldwide as of 2020 according to IDC, comparing gamut volume in CIE Lab units (the higher, the better) printing on HP Premium Instant-dry Satin Photo Paper and Best mode. Test performed under the same conditions in all printers measuring the TC9.18 target with the i1 spectrophotometer from X-rite.

² Embedded in the HP DesignJet Z9+ Pro 64-in Printer is an i1 spectrophotometer from X-Rite. Close collaboration between HP and X-Rite ensures a reliable solution that's been thoroughly tested to meet customer demands for ease, quality, and dependability.

³ Based on testing commissioned by HP and performed by Sogeti in January 2021 comparing the HP DesignJet Z9+ Pro 64-in Printer and comparable competitive printers that represent the majority market share worldwide as of 2020 according to IDC, by comparing the standard deviation of gloss level in GU units at 20° measurement angle (the lower, the better) printing on photo gloss paper and Best mode. HP DesignJet Z9+ Pro 64-in Printer tested with HP Premium Instant-dry Gloss Photo Paper in Best mode and Gloss Enhancer activated. HP Gloss Enhancer can be used on photo paper with the exception of matte-finish papers. Not included, sold separately.

⁴ Based on internal HP testing, January 2021 compared to the HP DesignJet Z6810 60-in Production Printer. Using HP Premium Instant-dry Satin Photo Paper in Best mode, the HP DesignJet Z9+ Pro 64-in Printer can achieve speeds of 14.1 m²/hr compared to the HP DesignJet Z6810 60-in Production Printer that can achieve speeds of 12.0 m²/hr. Using HP Artist Matte Canvas paper, in Normal mode, the HP DesignJet Z9+ Pro 64-in Printer can achieve speeds of 19 m²/hr compared to the HP DesignJet Z6810 60-in Production Printer that can achieve speeds of 13 m²/hr.

⁵ Based on testing commissioned by HP and performed by Sogeti in January 2021 comparing the HP DesignJet Z9+ Pro 64-in Printer and comparable competitive printers that represent the majority market share worldwide as of 2020 according to IDC, by loading a 44-in roll of Océ draft paper 75 g/m². Measuring time from loading the roll in the "roll holder" until the printer finishes the loading. Test performed under the same conditions in both printers (loading upper/top roll and using default settings for skew and size detection).

⁶ The ink cartridge HP Eco-Carton outer carton is 100% recyclable through local cardboard/paper programs. Inner materials including the ink bag are 55% recyclable and can be returned free of charge to the HP Planet Partners program for reprocessing of plastic parts. Zero landfill. For take-back of ink bag/printheads/prints, visit <http://www.hp.com/recycle> to see how to participate and for HP Planet Partners program availability; program may not be available in your jurisdiction.

⁷ Requires an HP PrintOS account, Internet connection, and connected Internet-capable device. For more information, see <http://www.printos.com>.
